

21HH-6.0051 Geodetic Surveys.

(1) All geodetic surveys, both vertical and horizontal, relating to land surveys in the State of Florida shall be under the direction of a land surveyor registered in the State of Florida. All geodetic surveys, both vertical and horizontal, shall conform to the Standards and Specifications for Geodetic Control Networks as set forth by the Federal Geodetic Control Committee (FGCC) in their most current publication.

(2) When global positioning systems are used for geodetic surveys, all such surveys shall conform to the Geometric Geodetic Accuracies Standards and Specifications for Using GPS Relative Positioning Techniques as set forth by the Federal Geodetic Control Committee (FGCC) in their most current publication.

(3) Other uses of GPS shall be covered under the appropriate section or sub-section, such as Topographic or Hydrographic surveys.

Specific Authority 472.027 FS. Law Implemented 472.027 FS. History—New 12-18-88.
